Report of the Jury of London 2010

The Jury for London 2010 are pleased to present their report on their work carried out over the past eight days.

The judging was conducted in two phases with a change of exhibits at the completion of the first round of judging. This was an innovative and cost effective approach by the Organising Committee and has proved to be achievable and successful. This was due in no small part to the great dedication and efforts of the volunteers in the Bin Room and those who worked as mounting and dismounting teams. The Jury wish to congratulate them for their sterling efforts.

The quality of exhibits shown was extremely high and all Commissioners are congratulated for their efforts in gaining these entries for London 2010.

This two phase approach to showing the exhibits also required dedication from the jury members and Expert Team who made strong commitment to the success of the Exhibition through their extended and harmonious deliberations.

The Expert Team conducted a wide review of exhibits in accordance with accepted procedures and reported to the Jury on any anomalies.

We thank the Organising Committee for the excellent facilities and equipment provided which facilitated an efficient jury process. The efforts of the Jury Secretariat are acknowledged in the contribution they made towards a timely and effective judging process.

The Youth One Frame class was conducted as an Experimental class and medal levels were not used. The awards gained will not be recognised at future FIP exhibitions.

The entries listed in the official catalogue under frames 1334 to 1341, 6146 to 6153 and 7001 to 7008 were not received, replacement entries were provided and were judged. Literature entries 9031 and 9548 were not received. Literature entries 9026 and 9039 and the entry in frames 1522 to 1526 did not conform to regulations and were not judged. The entry in frames 6024 to 6028 was transferred to Special Studies; the entry in frames 6482 to 6486 was transferred to Traditional Class.

Francis Kiddle
Jury President

Malcolm Groom
Jury Secretary

Report of the Expert Group of London 2010

The Expert Group made a specific review of exhibits that were queried at previous FIP exhibitions where certificates were requested.

From the 12 items identified, 3 had certificates provided and 9 items were not found in the current exhibits.

The Group also conducted a judicious inspection of exhibits in each competitive class except Youth Class. Dubious items reported by Judging Teams were checked. As there was no Championship Class in this exhibition one of the main tasks of the Expert Group was avoided, consequently focus was shifted to the current exhibits.

As a result a total of 67 new items were found and removed from the frames for closer examination. The recommendations of the Expert Group were as follows:

1) no action required	6 items
2) have to be certified	56 items
3) not to be shown again	3 items
4) special remark	2 items*

(*Certain items in one exhibit had stamps obscured to protect them from the light. The jury decided that it is not able to judge items where the originals are obscured but may do so if certificates are present.)

The reports of the items examined, together with the illustrations in duplicate, were handed over personally to the National Commissioners concerned for onward transmission to the respective exhibitors and National Federations. This will ensure that the decision had been properly conveyed to them. Copies of the same documents in colour were retained for FIP records.

The Expert Group would like to thank the Judging Teams and the National Commissioners for their co-operation and collaboration, and would like to thank the Organizing Committee for the excellent facilities provided. We very much appreciate the use of the room and the hardware supplied, especially the scanning system. Also our thanks are extended to the exhibition management staff who carried out the opening of the frames most efficiently and quickly.

London, 14 May, 2010
